

February 11, 2010

Dear Parents and Guardians:

As part of our math units, our grade 8 class has been working on angles and problem solving. This unit looks at how different angles affect the flow of water. We are planning a trip to Fallsview Indoor Waterpark in Niagara Falls to examine plant operations and slide construction on **Thursday, February 25th, 2010**. We will be leaving Oakridge School at 9:15 and will be returning to Oakridge by 2:30.

The cost of this trip is **\$35.00**. This includes the bus ride to and from Niagara Falls, and admission into the waterpark. If students wish to pre-order a lunch (choice of either a hot dog or hamburger, french fries, pop and popsicle), there will be an additional \$10 charge. Students who do not want to pre-order their lunch can bring their own lunch or bring money to purchase their lunch at one of the concession stands within the park.

Students are required to bring a bathing suit, a change of clothes and any additional snacks that they might need throughout the day.

Please complete and sign the permission slip below and return it, along with the appropriate money, to your teacher by **Friday, February 19th, 2010**.

Thank you,

Mr. Beaman and Mrs. Unwin

I give _____ permission to attend the field trip to Fallsview Indoor Waterpark in Niagara Falls on Thursday, February 25th, 2010. I understand that my child will be supervised by lifeguards at the waterpark and the adult chaperones from school.

- I have included \$35 to pay for this trip. I understand that my child will be taking a school bus.
- I have included \$10 to pre-order lunch for my child.
- Hamburger, French Fries, Pop (_____), popsicle
 - Hotdog, French Fries, Pop (_____), popsicle
