WHAT ABOUT MY APPEARANCE?

The more prepared you are for your sitting, the more satisfied you will be with the final results. Attention should be

given to your hair, make-up (if applicable), and jewelry.

Get to bed early the night before. Remember, these portraits last a lifetime. Fashion and trends change quickly, so keep that in mind when considering your look for your sitting.

Hints for her:

Simplicity is best. This applies to cosmetics, hair styles, jewelry, and clothes. A white blouse is best for the traditional gown portraits.

Hints for him:

A well pressed white shirt and dark tie are a must. Please make sure your shirt collar fits properly when done up. Have a close shave first thing in the morning (if applicable).

WHAT ABOUT MY GLASSES?

If you normally wear glasses then you should wear your glasses during your portrait session. Stronger prescriptions can cause light reflection and facial distortion. In this case we suggest you go to your optician and borrow a pair of frames or remove the lenses from your own glasses. Distortion and reflections cannot always be retouched effectively.
